

Harlow Farm is one of Vermont's earliest and largest state certified organic farms, we are committed to using sustainable, environmental farming practices. Our Winter CSA offers fresh, frozen and canned produce, meats and eggs. Additionally, we support local growers and producers, offering milk products, honey, syrup and baked goods, included in our CSA.

We use Farmigo to process our shares. On Farmigo you will create a unique account, place your individual order, track your account and order history and renew your subscription. Our CSA is different than the traditional CSA as you have the opportunity to shop using your online form for the items you want, the amounts you need to feed your family and the delivery weeks that work best for your schedule. The list of available items will be updated regularly.

New accounts will be placed on hold for 4 days. This gives us time to process your account. You will receive your box on the closest delivery date for your designated host site after the 4 day hold. When paying by check, please mail payment directly to farm and indicate in the "memo" section under whom the account is listed.

Becoming a CSA shareholder means that you pledge to support our farm in its operations by pre-paying a fee in exchange for a share of the harvest.

You have an interest in Harlow Farm's success! Our CSA prices are competitive with store prices. We've eliminated the middle men, decreased fuel costs, and extra packaging, while offering a variety of healthful fruits, vegetables and meats.

We are USDA certified organic. We do not spray for disease or insects. Your box may occasionally contain a hitchhiker – or two – and your veggies will look like they were grown under real conditions. That said, if you find that something is damaged, etc. please let us know during time of pick up so that it can be replaced, or you can be credited.

Harlow Farm delivery truck will arrive at the drop off site during the time allotted. Please be on time and bring your own bags to transfer the produce from the truck to your home. Two or three bags should do. You are responsible for making arrangements for your order if you are unable to pick up. Please ask a neighbor, friend or family member to pick-up your order for you. You order as you need, if your order is left, there will be a \$10 re-stock charge.

With your signature you agree to the following:

1. Harlow Farm is accepting my payment and thereby my commitment to and membership in the 2012/13 CSA season.
2. I recognize that there is no guarantee on the exact produce that is available each order deadline.
3. In joining the farm, I commit to learning the risks and rewards of farming by accepting the fluctuations in the harvest caused by nature or disaster.
4. If I do not take responsibility for my order at the time of delivery/pick up, a \$10 charge will incur.
5. All funds must be utilized by the season's end. No credits will be forwarded toward the next season.
6. If for any reason, I decide to terminate my CSA, I will contact Harlow Farm directly.
